

**You Dont Want Me There**  
**David Taylor**

Sick and tired of these things why cant you see  
Open up your damn eyes and look at me  
Im standing right here next to you

What else do I have to do  
To make you notice that  
You Don t Want Me There  
David Taylor

Capo 5  
**F#m E D** The whole song

I am a person, I have feelings too  
Its like you see right through me  
But I dont want you to  
Im stuck like glue to you  
But you dont want me  
To be there too

You may as well call me invisible  
Cause when you look at me its like you see  
Nothing at all  
Its like nothing I say sticks into you

What else do I have to do  
To make you notice that

I am a person, I have feelings too  
Its like you see right through me  
But I dont want you to  
Im stuck like glue to you  
But you dont want me  
To be there too

I am a person, I have feelings too  
Its like you see right through me  
But I dont want you to  
Im stuck like glue to you  
But you dont want me  
To be there too
