

Collide

David Whitmore

Took me 5 mins to figure out...will sound just like the CD...

-Put capo on 3rd fret

-Then play chord progression **G**, **D**, **Em**, and **C** (small chords, not bar chords).....however.....

-...during all four chords, be sure your pinky and ring fingers are continually pressing

down strings 1 and 2 (the thinnest strings) side-by-side on fret 6.

Peace
