

Hole In The Ground Daylight

I did this on guitar pro, but I ve had requests to tab it out/do the chords.

Tuning: Eb (if you want you can play it in drop C# if your fingers aren t long enough to do the stretches, but as far as I know Daylight play in Eb, but please correct me if I m wrong.)

I don t really know chord names either, so I ll just draw out the diagrams and give them the most accurate name I can.

Really easy/straightforward song to learn, you ll get the strumming pattern by listening to the song, it s not hard.
