

Days N Daze Of Our Lives

Days N' Daze

[Verse 1]

Thinking back thinking back to the good days
I realized they were shit days
And I was just too hammered to notice
A moment of sobriety sure sheds
A lot of light upon the truth
Once upon a time
I truly thought you were our friend
But it turns out you re a black hole
You consume till nothing s left
You project your insecurities on others
And it makes me fucking sick

[Hook]

All we did was give and give
And all you did was take
You told us that you cared about us
You re a fucking fake
Cause in your eyes you re Jesus Christ
Yeah I m so sure

[Chorus]

You drive me crazy
You drive me to drink
I hope you drive your car off a cliff

Gm **D**
You self obsessed asshole

A **G** **Gm G**
I was so much better off after you split

D
You drive me insane

A
You drive me out of my head

Bm
If it s between living with you and death

G **Gm**
I m better off dead

D **A** **G** **Gm G**
I sincerely hope our paths never cross again

[Verse 2]

D **A**
I hate to say but I d find it entertaining

Bm **G** **Gm**
If you sat on a tack or got stuck in the rain

D
Or if you got super high

A
Went and bought lucky charms

G
When you poured yourself a bowl

Gm **G**
All the marshmallows were gone

D
Every time you play guitar

A
I hope you break A and G

Bm
Every time you find a 40 oz

G **Gm**
Its filled up with my pee

D **A**
I hate to say I wish these things on you

G
But you deserve it cause there s no excuse

Gm **G**
To be such an aloof and shitty person
