

Let Down  
Dead By Sunrise

[Verse]

**G#m**                  **B**          **Ebm**  
And the tears fall like rain  
          **C#**  
Down my face again  
          **G#m**                  **B**          **Ebm**  
All the words you wouldn't say  
          **C#**  
And the games you played  
          **G#m**          **B**          **Ebm**  
With my unfoolish heart  
**C#**                  **G#m**                  **B**          **Ebm**          **C#**  
Oh I should have known this from the start  
          **G#m**          **B**          **Ebm**  
Oh the winter and spring  
          **C#**  
Going in hand in hand  
          **G#m**                  **B**          **Ebm**  
Just like my love and pain  
          **C#**                  **G#m**                  **B**          **Ebm**  
How the thought of you cuts deep within the vein  
          **C#**                  **G#m**                  **B**          **Ebm**          **C#**  
All this brand new skin stretched across scared terrain

[Verse]

**G#m**          **B**  
Cause I don't want to be let down  
                  **Ebm**          **C#**  
I don't want to live my life again  
                  **G#m**                  **B**          **Ebm**          **C#**  
Don't want to be led down the same old road  
                  **G#m**          **B**  
Cause I don't want to be let down  
                  **Ebm**          **C#**  
I don't want to live my lies again  
                  **G#m**                  **B**          **Ebm**          **C#**  
Don't want to be led down the same old road
