Dead Cool Dropouts

Intros: **Am F C G**

Chorus: **Dm F C G**

# Green Eyes Make Me Blue

**Am** **F**  
Lonely but not alone

These city lights can not make this home

And it s too damn cold tonight

Am  
And I forget all the reasons why I try

**F**

To hold you close to me

C

You re the only ghost I see

**G**

And I want you so bad tonight

Am

So I ll give into the longing the last time

**F**  
Don t show me mercy

Because I can t win this fight

With you on my side

**F**  
Don t say I m worth it

C

To keep me up at night

**G**  
When you don't even know the price

Dm	F
Your green eyes make me blue	

How am I to run from you

And do you pull me in afraid to let me go

**F**  
I can see the light

**C**  
Your perfect lips won't win tonight

Like they always do

Am  
Your green eyes make me blue

I wish I could believe your lies  
They're the same ones that I tried  
I wish I could cut all ties  
You go your way and I'll go mine

Get the hell out of this place  
Before you say my name  
Send my heart back up in flames  
I'll never make it to the fire escape

Your green eyes make me blue  
How am I to run from you  
And do you pull me in afraid to let me go  
I can see the light  
Your perfect lips won't win tonight  
Like they always do  
Your green eyes make me blue

Don't show me mercy  
Because I can't win this fight  
With you on my side  
Don't say I'm worth it  
Just keep me up at night  
When you don't even know the price

Your green eyes make me blue  
How am I to run from you  
And do you hang me this high just to watch me fall  
I can see the light  
Your perfect lips won't win tonight  
Like they always do

Your green eyes make me blue
