

**The Evolution Will Be Tele-Visualized  
Dead to Me**

Dead To Me  
The Evolution Will Be Tele-Visualized  
Standard Tuning

I like tabbing my favorite songs that are not available on the internet. Okay.  
Let s rock.

**C G C**

Evolution will be tele-visually, as much in our thoughts as on our screens

**F G Am E**

I admit that I m fruition readily, all the lights that shone before me

**Am E**

And all the lives lived before me

**G F C**

Simply put, that s what is before me

**C**

It s just the slow slow stroll of the elements

**G C**

The infinite collide if their co-exist

**F C**

Sometimes they hit, sometimes they miss

**E Am**

But me, I love all of it

**E Am**

But this has to be my favorite part of it

**G F C**

Sitting in my room and singing just for you

**Am E C F C**

You lectured and I listened, I listened

**F C F C F C G**

For all the wasted nights that I laid there and tried to make myself understand

**F C F C**

All the useless verbs or the comeuppance I deserved

**F C G**

It doesnâ€™t mean I got a plan

I observed your moves rather eloquent

The elliptic trips you make but that don t pay the rent

I admit my admiration readily, just as others did that went before me

Amateurs advance the very thoughts I think

Simply put, that s what has become me

You lectured and I listened, I listened

For all the wasted nights that I laid there and tried to make myself understand

All the useless verbs or the comeuppance I deserved  
It doesn't mean I got a plan

Solo

For all the wasted nights that I laid there and tried to make myself understand  
All the useless verbs or the comeuppance I deserved  
It doesn't mean I got a plan

For all the wasted nights that I laid there and tried to make myself understand  
All the useless verbs or the comeuppance I deserved  
It doesn't mean I got a plan
