

Saviour
Deaf Havana

[Verse 1]

I m scared of talkin in my sleep most every night
In case my conscience has a change of heart
Suddenly decides to let her know the darkest secrets
I keep bottled up inside
Maybe it s time I found a better place to hide
Or just somebody to confide in, yeah

[Chorus]

I was never holding on
Anything more than a memory of you
Cause every time you proved me wrong
I ended up drunk and afraid of what I ve become
Undone, I should be ashamed for thinking I could save you
For thinking I could save ya, I d never be your saviour

[Verse 2]

I must be broken cause I saw myself in you
And every fleeting fragile moment
That you somehow struggled through
Cause even now I still find comfort in the corners of your mind
It s been killing me for years but somehow keeping me alive

[Chorus]

I was never holding on

Anything more than a memory of you
