

**Binary Sea**  
**Death Cab For Cutie**

My favorite song off the new record...

**C Am G F**  
**C Am Em F**

**C** **Dm** **C**  
Oh Atlas could not understand  
**Am** **F**  
The world was so much smaller than  
**C** **Dm** **C**  
The one he used to hold before  
**Am** **F**  
But the weight it brought him to the floor  
**C** **Dm** **C**  
As you watched him struggle to his feet  
**Am** **F**  
You took photos capturing his defeat  
**C** **Dm** **C**  
And messaged them to all your friends  
**Am** **F**  
And we all laughed at his expense

**C Am G F**  
**C Am Em F**

**C** **Dm** **C**  
Oh come my love and swim with me  
**Am** **F**  
Out in this vast Binary Sea  
**C** **Dm** **C**  
Zeros and ones patterns appear  
**Am** **F**  
They ll prove to all that we were here  
**C** **Dm** **C**  
For if there is no document  
**Am** **F**  
We cannot build our monument  
**C** **Dm** **C**  
So look into the lens and  
**Am** **F**  
I ll make sure this moment never dies

**C Am G F**  
**C Am Em F**  
**C Am G F**  
**C Am Em F**

**C**                    **Dm**                    **C**  
Oh Atlas could not stay engaged  
      **Am**                                    **F**  
Was more distracted every day  
**C**                                    **Dm C**  
You slowly fell into disarray  
      **Am**                                    **F**  
Just trying to think of something to say  
**C**                                    **Dm**                    **C**  
For if there is no document  
      **Am**                                    **F**  
There cannot be a monument  
**C**                                    **Dm**                    **C**  
So lean in close or lend an ear  
      **Am**                                    **F**                                    **F (hold)**  
There s something brilliant bound to happen here
