

No Joy In Mudville  
Death Cab For Cutie

This song is really hard to tab, i think i kind of figured out the verse chords so here they are. Try and mess around with it.

(sounds a lot better if you use power chords)

D A Bm G  
last night i dreamt that i was you  
D A Bm G D  
i was dressed all in black with dark glasses and attitude  
A Bm G  
such a pose i could simply not hold  
D A Bm G D  
through days in a northern town that i had once called a home  
A Bm G  
and your studies of fringe new york streets  
D A Bm G D  
i was reading the pavement in every word you would speak  
A Bm G Bm  
to a brownstone up three flights of stairs and it s on

----chorus----

D A Bm G  
trust fund hipsters all casing the room  
D A Bm G D  
chock full of amphetamines, the overturned kick drum boom  
A Bm G  
set the pace with incomparable cool  
D A Bm G D  
and if the tempo was lousy it was lost on all but you  
A Bm G  
and your studies of fringe new york streets  
D A Bm G D  
i was reading the pavement in every word you would speak  
A Bm G Bm  
to a brownstone up three flights of stairs and it s on
