[Verse 1]

C Em C Em  
I remember your silhouette on Dyes Inlet  
C Em G Am  
Against the silver sheen of a moon like painted glass  
C Em C Em C  
Under stars out on a pier; a celestial sphere  
Em G Am  
We were weightless as the waves that disappeared

[Chorus]

Em G D Em/B G/B  
Northern lights filled our skies  
Em G D Em/B G/B  
Empty nights synchronized

[Break]

C Em C Em

[Verse 2]

C Em C Em  
We shared a clove cigarette on the parapet  
C Em G Am  
As the TVs glowed from the windows of the model homes  
C Em C Em C  
And I'd never be that close again to your lips and perfect skin  
Em G Am  
As the tide receded into the unknown

Northern lights filled our skies
