

Your New Twin Sized Bed
Death Cab For Cutie

Hey everyone, this is my first tab, so bare with me, but for me all the other tabs at the moment seem a little off so here s what i hear, hope you agree

The Chords seem to be picked witha plectrum, playing the bass note, then up and down through the treble of the chord

```

eg. Cm      A#      G#
-----|
----4-----|
----5-----7-----5---|
---5--5-----8-----6--|
--3-----8--8---6--6-|
-----6-----4-----|

```

Cm-34553x A#-667886 G#-445664 Fm- 111331

Verse- Picking as above

```

Cm          A#          G#          Cm A# G#
You look so defeated lying there in your new twin size bed
Cm          A#          G#          Cm A# G#
With a single pillow underneath your single head
Cm          A#          G#          Cm
A# G#

```

```

I guess you decided that that old queen was more space than you would need
Cm          A#          G#          Cm
A# G#

```

```

Now it s in the alley behind your apartment with a sign that says it s free
(strumming)                                     (back to picking)
      Fm          G#          Cm A# G#

```

And I hope you have more luck with this than me

```

Cm          A#          G#          Cm A# G#
You used to think that someone would come along.
Cm          A#          G#          Cm A# G#
And lay beside you in a space that they belong.

```

```

Cm          A#          G#          Cm A# G#
But the other side of the mattress and box springs stayed like new.
Cm          A#          G#          Cm A# G#

```

And what s the point of holding onto what never gets used?

Stumming-----> picking

```

Fm          G#          Cm A# G#
Other than to sit and desire for self-abuse.

```
