

To The Bone
Deb Talan

F#m **D**

Can t say goodbye

A **E**

We never really met

F#m **D**

you just burnt my bed

A

And tore out the stars

E

And kissed my forehead

F#m **D**

Now I am an ache

A **E**

That fell into a hole

F#m **D**

And you were the sky

A

You opened wide

E

Soaked to the bone and

So cold

C

I m so cold

F#m **D**

I loved being nearer you

A

You said you loved

E

F#m

Being near me too

D

A

E

So why are you determined to run?

F#m **D** **A**

Is it still night inside your heart,

E

Too soon for the sun?

F#m **D**

Or do you feel like a rabbit

A

Loving a gun?

E

Never knowing the shot will come

C

And leave you cold

Leave you cold

B **A**
Your smile pierced my skin and travelled out again

B
A rogue bullet

A
Passing through every vital organ

B
Wish you'd let me in

A
I'm bleeding here

Outside your door

B
Did the snows fall heavy

A
In your house? In bedroom

To kitchen?

B **A**
And you can't find me anymore

C
You're too cold

You're too cold

F#m **D**
Can't say goodbye

A **E**
We never really met...
