D

I keep singing the same old song

Bm

Like I did before

D

When you left me, you left me in darkness

Bm

I d never known before

D

I was restless, a fool for your time

Bm

Waiting round for you to call

D

But now I ve found me an angel of mercy

Bm

I don t feel bad at all

E

Your body was honey, I tasted a lot

G

But let me tell you babe, I need more than you got

A

I want someone to hold me and keep me satisfied

Riff

I need love

(Verse 2)

I ve got nothing to do, ain t got nothing to say

Just live your life the way you know

When you moved on you took all the sweetness

Was I a fool to let you go

With the woman I forget for the moment

All the times we knew before

Though I m still singing that same old love song

Don t want you knocking on my door

Your body was honey, I tasted a lot

But let me tell you babe, I need more than you got  
I want someone to hold me and keep me satisfied  
I need love
