B

E

I will call you my friend

(Verse 2)

I have always been a sinner

But then the lady came along

She stole my heart and turned me round

Till I didn t know right from wrong

She whispered words of kindness

I d never ever heard before

Golden words and silver tongue

Till I really couldn t take no more

Lady luck

Come on give me what I want

Pull me up

Lady luck

If I see you again

I will call you my friend

Come on shake me
