

On Top Of The World
Deep Purple

[Intro]

Dm C G 4x

G F G
Hot summer night, the working girls were on their way back home
G F G
It was getting late so I tagged along, couldn't let them walk alone
G F G
I followed them up some greasy steps to a rooftop in the sky
G F G
No walls around just a sea of stars, my throat was getting dry

Dm C G 2x

G F G
Everyone could feel the heat that's why we all disobeyed
G F G
Our clothes and inhibitions went off flying cross the globe
G F G
Dancing crazy getting loose and closer to the edge
G F G
I could feel my blood was up and it was pounding in my head

Dm C G 2x

F A
So there I was, just me and the girls
G Bb C
Under the moonlight on the top of the world

Dm C G 2x

F A
So there I was, just me and the girls
G Bb C
Under the moonlight on the top of the world
N.C.
As things were dying down we retreated from the precipice

N.C.
I lay beside the most beautiful girl in the universe

N.C.
Her name was Venus in Heaven

N.C.

She fed me rice and offered me wine

N.C.

I accepted ambrosia and nectar

N.C.

From an amber goddess

N.C.

I collapsed between the thighs of Morpheus

N.C.

Next thing I felt was a sharp pain of sunrise

N.C.

My mouth was open and full of rice

N.C.

As I managed to prize open one of my eyes

N.C.

I saw Luigi the cockroach carry off his prize

N.C.

And there lay Venus still sprawled out and naked for sure

N.C.

But not quite what she was the night before

N.C.

I made my excuses and left through the door

N.C.

Stepped into space at the twentieth floor

N.C.

And that s why I don t like heights no more

[Outro]
