

**Am**

**Fmaj7**

And that was all that she wrote for me

**C**

**Em**

You fell away, I don't why

**Am**

**Fmaj7**

And that was all that she wrote for me

**C**

**Em**

**Am**

Lying here in your bed

**Fmaj7**

The one that you like to do it in

**C**

**Em**

**Am**

Pieces of long brown hair

**Fmaj7**

Are all over it and still in my brain

**Am**

**G**

I can't explain

**Am**

**G**

**Am**

What it's like not knowing if I'll ever cross your mind

**C**

**Em**

Today was that day, it was that time

**Am**

**Fmaj7**

And that was all that she wrote for me

**C**

**Em**

You fell away, I don't why

**Am**

**Fmaj7**

And that was all that she wrote for me

**Am**

**G**

Sleep through the day, fight through the night

**Am**            **G**

7am and the TV is white

**Am**

Covered in snow

**G**                    **Am**                    **G**

I never knew that Hell could get so cold

(Solo - Don t know it)

**C**                                    **Em**

Today was that day, it was that time

**Am**                                    **Fmaj7**

And that was all that she wrote for me

**C**                                    **Em**

You fell away, I don t why

**Am**                                    **Fmaj7**

And that was all that she wrote for me

**C**                                    **Em**                                    **Am**

Something s wrong with your mind

**Fmaj7**

It won t think of me anymore

**C**                                    **Em**                                    **Am**

Was it all a waste of time
