Hi there! I really like this song and I really like to sing along to it. So, to make it easy for y all to sing it, I decided to post the chords for the acoustic version (which are the same than for the normal version). Anyway, just tune your low E string down to do D and that s all. Have fun playing.

PS: when you see a chord with a * in front of it, it just means you should play the chord following the drop D notation indicated below. For example, D5 is a normal D5 (it s played like the standard tuning D5 power chord) while D5* is the same power chord played in the drop D notation (000xxx).

Tuning: Drop D (DADgbe)

Chords used:

- C (032010)
- Dsus4/9 (054030)
- D5 (x57700)
- C5 (x35500)
- Asus4/7 (000200)
- F5* (333xxx)
- D5* (000xxx)
- Dsus2 (000230)
- G5 (x10 12 12 00)
- F5 (x8 10 10 00)
- C5 (10 10 10 xxx)
- G5* (555xxx)
