Humans can be

В

the cutest of animals sometimes

_

and I walk out the hospital cursing cars because

A B G

all this turnover makes me so tired

D A

and how are you feeling

в

white in these hospital walls

G

can't quite wash out

D

your tiredly eyes

D i

Grandma tucks you in at night

В

Says never be afraid

G

Of anything outside

Grandma tucks you in at night Says goodnight little sweet

You come from a dead people these pictures of the past litter the floor like newsprint like cities fell in stacks

like men jumped from buildings dust was overwhelming do we expect anything to last

Grandma tucks you in at night Says never be afraid Of anything outside Grandma tucks you in at night Says goodnight little sweet

Goodnight little sweet I'll sing you to sleep Watch everything recede La la la la

Goodnight little sweet Watch everything recede I'll sing you to sleep La la la la

Goodnight little sweet I'll sing you to sleep Watch everything recede La la la la

Goodnight little sweet Watch everything recede La la la la
