Swan Song
Degrassi

itried the best to sound it out, so enjoy :)

```
D            G
The day is long
D            G
The flight and song
 C            Am         D
But I dont even listen

D         G
Bluebird hides
D         G
Peace of night
C        Am       D
I dont even try

F            C                 G
For every girl that is unhappy
F            C            G
For every boy that is bad
F            C            G
For every momma gone missing
F            C            G
For every papa gone mad

D            G
Ill take a chance
D            G
Its not romance
C                Am          G
But something more important
      D
So give me wings
      D
And let me sing
C                Am          D
Its all been done before

F            C                 G
For every girl that is unhappy
F            C            G
For every boy that is bad
F            C            G
For every momma gone missing
```

Oh

```
F           C           G
For every papa gone mad
```
