

Swan Song

Degrassi

itried the best to sound it out, so enjoy :)

**C#**                    **F#**  
The day is long  
**C#**                    **F#**  
The flight and song  
**B**                    **G#m**                    **C#**  
But I dont even listen

**C#**                    **F#**  
Bluebird hides  
**C#**                    **F#**  
Peace of night  
**B**                    **G#m**                    **C#**  
I dont even try

**E**                    **B**                    **F#**  
For every girl that is unhappy  
**E**                    **B**                    **F#**  
For every boy that is bad  
**E**                    **B**                    **F#**  
For every momma gone missing  
**E**                    **B**                    **F#**  
For every papa gone mad

**C#**                    **F#**  
Ill take a chance  
**C#**                    **F#**  
Its not romance  
**B**                    **G#m**                    **F#**  
But something more important  
**C#**  
So give me wings  
**C#**  
And let me sing  
**B**                    **G#m**                    **C#**  
Its all been done before

**E**                    **B**                    **F#**  
For every girl that is unhappy  
**E**                    **B**                    **F#**  
For every boy that is bad  
**E**                    **B**                    **F#**  
For every momma gone missing

Oh

**E**                **B**                **F#**

For every papa gone mad
