

Swan Song

Degrassi

tried the best to sound it out, so enjoy :)

**E**                    **A**  
The day is long  
**E**                    **A**  
The flight and song  
**D**                    **Bm**                    **E**  
But I dont even listen

**E**                    **A**  
Bluebird hides  
**E**                    **A**  
Peace of night  
**D**                    **Bm**                    **E**  
I dont even try

**G**                    **D**                    **A**  
For every girl that is unhappy  
**G**                    **D**                    **A**  
For every boy that is bad  
**G**                    **D**                    **A**  
For every momma gone missing  
**G**                    **D**                    **A**  
For every papa gone mad

**E**                    **A**  
Ill take a chance  
**E**                    **A**  
Its not romance  
**D**                    **Bm**                    **A**  
But something more important  
**E**  
So give me wings  
**E**  
And let me sing  
**D**                    **Bm**                    **E**  
Its all been done before

**G**                    **D**                    **A**  
For every girl that is unhappy  
**G**                    **D**                    **A**  
For every boy that is bad  
**G**                    **D**                    **A**  
For every momma gone missing

Oh

**G**            **D**            **A**  
For every papa gone mad
