

Aint Got Me Nowhere
Deja Fate

Chords are:

Bm/D/A/E and repeats all the way through

Sat by a lonely road where nobody will listen
Walking by are boys and girls but they re too busy kissing
Saw someone I thought I knew but only in the distance
Tell me what I ve gotta do, tell me what I m missing

Everybody Laughs, Everybody Cries
Everybody Dance in the world tonight

Everybody Laughs, Everybody Cries
Everybody Dance in the world tonight

Every movement I made
Ain t got me nowhere
Every chance that I ve taken
Ain t got me nowhere
Every movement I made
Aint got me nowhere
Every chance that I ve taken
Aint got me nowhere

Heartbeat, you know me but you ain t even listening
don t ask me about my dreams, just leaves me wishing
One of these days I ll walk away, you ll see me in the distance.
Say goodbye don t wanna stay, don t know what I m reaching

Everybody Laughs, Everybody Cries
Everybody Dance in the world tonight

Every movement I made
Aint got me nowhere
Every chance that I ve taken
Aint got me nowhere
Every movement I made
Aint got me nowhere
Every chance that I ve taken
Aint got me nowhere

(Rap)

broken heart and pain, living my life this way, don t know which way to take,
it s like this every single day.
Peering through the glass, at memories of the past,
thinking back I should ve took a chance but life can move so fast,

I saw someone I thought I knew but I left it straight to chance,
Now I m walking these streets, feeling the pain of a thousand hearts

Every movement I made
Aint got me nowhere
Every chance that I ve taken
Aint got me nowhere
Every movement I made
Aint got me nowhere
Every chance that I ve taken
Aint got me nowhere
