G A D

G A D  
I must have had a million damned unlucky days  
G A D  
But there ain t no cloud that a bottle can t chase away  
G A D  
I ve done my deal of living, ran from place to place  
G A D  
But when the roof comes in I don t wanna take it straight

Bm F#  
They say have faith any soul can make it  
A E  
But hell why should I wait  
G A D  
Till the clouds go rain on some other suckers parade

**G** **A** **D**  
I ve had my share of heartaches, let downs and tricks  
**G** **A** **D**  
But the everyday blues is the one thing I can t fix  
**G** **A** **D**  
I ve heard those holy bretheren, muttering my name  
**G** **A** **D**  
But it ain t no sin to drink when you re suffering

**Bm** **F#**  
Patience they say, is a saintly virtue,  
**A** **E**  
But hell why should I wait  
**G** **A** **D**  
Till the clouds go rain on some other suckers parade

**F#** **Bm**  
When every heavy sky, just empties on your fate  
**E** **A** **A7**  
Sometimes keeping dry is something to celebrate

Solo over  
**G A D G A D**

**Bm** **F#**  
They say have faith any soul can make it  
**A** **E**  
But hell why should I wait  
**G** **A** **D**  
Till the clouds go rain on some other suckers parade

D til end
