Verses , same as verse 1:

There is a town I used to love
It once contained most eveything I ever did dream of
My baby in the basement as the traffic trawled above
There is a town I used to love

There is a bar I used to know
I still sometimes drop by when I have no place else to go
It s where the kings of comedy, compare their tattered souls
There is a bar I used to know

There is a joke I used to tell
Some guy who gets 3 wishes, ends up wasting them to hell
And in the end in misery, he tells the joke himself

(play the next line as if it is the end of a verse, then repeat normal progression)

There is a guy I used to know
He once had everything that any man could hold
And now he sits here drinking, with a tale that always goes....
There is a girl I used to know
