

Little Heart

Delaney Davidson

Awesome song from an awesome NZ artist.

Listen to the song for chord changes, mine probably aren't in the right place.

G **Am**
Little heart dont slow
C **D**
im already here you know
G **Am**
Over the lake you see the wind blow
C **D**
Through the trees through the snow

Em **G**
Winter comes around
F **G** **Am** **Em**
A heart is slow the senses all shut down
Em **G**
Resistant in the coil
F **G** **Am** **Em**
The tea cup waits as the water starts to boil

G **Am**
Live according to the season
C **D**
In the home where I was born
G **Am**
Things they gotta have a reason
C **D**
The sun don't come before the dawn

Em **G**
Little man must go
F **G** **Am** **Em**
Choke the business down the river thick and slow
Em **G**
Dirty meddling hand
F **G** **Am** **Em**
Will drive the value down by the fall of land

G **Am**
See the head the head is floating
C **D**
The body sits there all alone

G **Am**

Grandpa see the world is changing

C **D**

Little boy is left alone
