

Love You So  
Delilah

**Em**                      **Bm**                      **A**                      **Em**  
I m fighting a war that I did not choose  
**Em**                      **Bm**                                      **A**                      **Em**  
I m hosting the blame when my ego s bruised  
**Em**                                      **Bm**                                      **A**                                      **Em**  
I m pointing the gun towards my only friend  
**Em**                                      **Bm**                                      **A**                                      **Em**  
I ll carry your heart till the bitter end  
**Em**                                      **Bm**  
Now you own a lifetime  
                    **A**                                      **Em**  
Of woes, but they ain t mine

**Em**                                      **Bm**  
You know I love you so,  
**A**    **Em**  
Even though I can t get you now  
**Em**                                      **Bm**  
You know I love you so,  
**A**    **Em**  
Forgetting all of my tries  
**Em**                                      **Bm**  
You know I left you lonely  
**A**    **Em**  
You always leave me with doubt  
**Em**                                      **Bm**  
You know I love you so,  
**A**    **Em**  
And so, and so, and so, and so

**Em**                                      **Bm**                                      **A**                                      **Em**  
I m falling apart at my every seam  
**Em**                                      **Bm**    **A**                                      **Em**  
I m chasing my tail whilst you chase your dream  
**Em**                                      **Bm**    **A**                                      **Em**  
Inhaling the stench of my love s betrayal  
**Em**    **Bm**    **A**                                      **Em**  
Keep ignoring the signs darling you ll prevail  
**Em**    **Bm**  
cause you own a lifetime  
                    **A**    **Em**  
Of woes, but they ain t mine

**Em** **Bm**  
And you sold my lifeline  
**A** **Em**  
So I m blue when the bell chimes

**Em** **Bm**  
You know I love you so,  
**A** **Em**  
Even though I can t get you now  
**Em** **Bm**  
You know I love you so,  
**A** **Em**  
Forgetting all of my tries  
**Em** **Bm**  
You know I left you lonely  
**A** **Em**  
You always leave me with doubt  
**Em** **Bm**  
You know I love you so,  
**A** **Em**  
And so, and so, and so, and so

**Em** **Bm** **A**  
Do you know I love you so  
**Em** **Bm** **A**  
In my heart that s when you re home  
**Em** **Bm**  
I know you leave me lonely  
**A** **Em**  
I know you leave me lost  
**Em**  
Still my heart goes  
**Bm** **A**  
Like so and so and so

**Em** **Bm**  
You know I love you so,  
**A** **Em**  
Even though I can t get you now  
**Em** **Bm**  
You know I love you so,  
**A** **Em**  
Forgetting all of my tries  
**Em** **Bm**  
You know I left you lonely  
**A** **Em**  
You always leave me with doubt  
**Em** **Bm**  
You know I love you so,
