

**Angels In The Room**  
**Delta Goodrem**

This is an awesome song with great vocals. I play it acoustic and finger picked but, it sounds good any other way. Not sure about every second line of the verses it sounds like sometimes and Em7 other times. Let me know what you all think.  
(Capo 4)

Verse:

**Cadd9** **Em7**  
I know there s something here  
Cadd9 Em7 (or D sounds good too)  
There s more than meets the eye  
**Cadd9** **Em7**  
More strange more beautiful  
Cadd9 Em7 (or D)  
Than these words can describe

Don t know how I got here  
The past has come and gone  
I just know I have found  
The place my heart belongs

Chorus:

**Cadd9** **Em7**  
And I want to stay  
Cadd9 D  
I feel safe here in your light  
**Cadd9** **Em7**  
This must be what heaven s like  
Cadd9 D  
Must be angel s in the room tonight

Verse:

So much here in this world  
I ll never understand  
I ll have to learn to trust  
I ll do the best I can

All the mistakes I ve made  
The wrong turns on this road  
Have only led me to your arms  
And all I know

Chorus:

I want to stay  
I feel safe in your light  
This must be what heaven s like

Must be angels in the room  
Oh can you feel it too  
Must be angels in the room tonight
