      |--3---|
      |------|
      |------|
      |--2---|
      |------|
```

Intro:
Em Am Em Em
Em Am Em

Verse:
Em   **Am**   **Em**
A man fell in love with a man
         C   **Em**   **G**   **D**
And it seemed it was something good they d found
           C   **G/B**
But the Mormons over in California
         Em   **G**   **D**
They say that it s just sin raining down
          C   **D**   **Em**
 Cause love doesn t know that it s bound

Em   **Am**   **Em**
A girl went and fell for a girl
           C   **Em**   **G**   **D**
And somewhere in the night where they lay curled up
    C   **G/B**
There s a threat to our family set
          Em   **G**   **D**
They re termites boring holes in the wood
          C   **D**   **Em**
 Cause love doesn t know when it s no good

Chorus:
            C   **Em**
And I said someone put a chain on love
        C   **Em**
 Cause right now there s just far too much of it
      C   **G/B**
And Jesus taught it, but now we ve caught it
        Em   **G**   **D**
And we won t let it run wild again
          C   **D**   **Em**
 Cause love doesn t know when it s a sin

Verse:

```
Em                        Am        Em
A white found her soul in a black
     C                    Em        G    D
But can t they see how that is an attack
        C                    G/B
 Cause pretty colors can t love each other
            Em           G           D
They re crossing all our favorite lines
        C            D              Em
 Cause love doesn t know that it s not blind

Chorus:
            C                        Em
And I said someone put a chain on love
       C                          Em
 Cause right now there s just far too much of it
          C                  G/B
And the former meek they won t turn their cheek
       Em               G         D
They re aiming at the next to come along
        C            D              Em
 Cause love doesn t know when it s wrong

            C                        Em
And I said someone put a chain on love
        C                         Em
 Cause right now there s just far too much of it
        C                  G/B
And Jesus taught it, but now we ve caught it
       Em               G           D
And we won t let it run wild again
        C            D              Em
 Cause love doesn t know when it s a sin
        C            D              Em
 Cause love doesn t know when it s a sin
        C            D              Em
 Cause love doesn t know when it s a sin
```
