

Substance

Demi Lovato

Is anybody happy with life in the back seat?
Trying to master the art of detaching?
Is anybody driving, is anyone asking?
Is anyone grasping that nothing lasts?

Woah
I know we re all fucking exhausted
Woah
Am I in my head or have we all lost it?
So I ask myself

Am I the only one looking for substance?
Got high, it only left me lonely and loveless
(F F# G C#)
Don t wanna end up in a casket, head full of maggots
Body full of jack shit, I get an abundance
Am I the only one looking for substance?
(F F# G C#)
I don t remember last week, got my head scratching
But everyone s acting like nothing is lacking
I think we might be crashing, everyone s laughing
Time is just passing, yet nothing lasts

Woah
I know we re all fucking exhausted
