G#m   Eb/G   F# Eb/G
   You fled from medication cause it only causes pain
     G#m   Eb/G   F#   Eb/G
You won t go to the doctor he keeps calling you insane
     G#m   Eb/G   F# Eb/G
You re lost even when you re going the right way
             C#m
You mean the world to me even
E
though you might be crazy

Chorus:
B   Ebm   E
   And you said we wouldn t make it
     F#   B
But look how far we ve come
        Ebm   E
For so long my heart was breaking
     F#   Eb/G   G#m
And now we re standing strong
                Eb/G
The things you say you make
     F#   E
me fall harder each day
          C#m
You re a trainwreck
                  E
But I wouldn t love
            G#m
you if you changed!
Eb/G   F#   C#/F
Yeah! Ohh yeah!

Verse 2:
   G#m
I shook your hand
        Eb/G   F# C#/F
And you pulled me right away
     G#m
You asked me to dance and
    Eb/G   F#   C#/F
instead I said, No way!
   G#m   Eb/G
Inside I was dying to give it

```
                F#              C#/F
a try and you begged me so I stayed
  C#m
I knew you were
          E
different from the way I caved

(Repeat chorus)

Lead Guitar Solo: G#m   Eb/G   F#   C#/F

Bridge:
E           F#
  We are so different
    B   F#/Bb   E
But opposites attract
E             F#
  I hope you know me
          B F#/Bb    G#m
And that I never look back
               C#m
You re one of a kind!
               E
And no one can change
            F#    (hold)
this song of mine Oh!

(Repeat Chorus)

Outro:
                  B            Ebm
... One more thing I thought I d shared
          E     F#
with someone special,
       B
I m falling like
  Ebm           E    F#
I ve never fell before
     G#m
It s funny you
        Eb/G
said we d never
            F#
make it but look
             C#/F
how far we ve come
        C#m
You re a trainwreck
        E    F#      B (hold)
But with you, I m in love
