

**It doesn't matter**  
**Depeche Mode**

(1:)

**D**

I am happy that I have you

**Em**

**A**

even though you're not here now

**D**

I know somewhere, you're dreaming

**Em**

**A**

Though it's definitely not of me

(2:)

**D**

It doesn't matter if this all shatters

**Em**

**D**

nothing last forever

**Em**

but I'm praying that we're staying

**A**

together

(like 1:)

I am warmed

by your friendship

Even when you're far away

And I'm happy

In the knowledge

We may never see the day

(like 2:)

When I kiss you

and you kiss me

don't pretend you miss me

The worst kind

of diseased mind

Is one filled with jealousy

**Em**

**A**

If we should meet again

**D**

Don't try to solve the puzzle

**Em**

**A**

Just lay down next to me

**D**

And please don't move a muscle

(like 1:)

I will thank you

most of all for

the respect you have for me

I'm embarrassed

It overwhelms me

Because I don't deserve any

Repeat (1) and ends on **D**
