Ready Now
Desperation Band
Come like You promised You would
               G
I want to surrender for good
             Α
I know that I need You
And I don t want to keep living life alone
 So take my heart
 And make it new
 And make it true
 And make it like You
 Take my hands
 I lift them high
 They re Yours not mine to do
                  Α
Do what You will, do what You will
Do what You will
 I feel like a blind man in Your sight
           D
I know that I m wicked in Your eyes
So wash me and make me shine like Your Son
I want to tell everyone that You re the only One
