F#m G#m C#m            C#m  
F#m G#m C#m            C#m D#m

This is repeated through the whole song

Here are the lyrics though some might be wrong.

Hey how you doin  
Yeah I m doin mighty fine  
Last time I think  
It s been a long time  
Stop smiling let me get that look off your face  
Please don t leave before ya  
Stop being so fake  
I know you do not like me  
And you made it very clear  
Your always talking bout me  
From what I hear  
Always put me down  
When you thought that you could  
I want you to know I m doing so good

Wasn t it you that said  
I thought I was all that and you  
Said I didn t have a clue  
Wasn t it you that said  
That I wouldn t make it through  
And wasn t it you that said  
That I didn t look to good  
That I wouldn t do to good  
I d never make it out the hood  
I want you to know that I m doing so good

So good, so good, so good  
I know you hate it but I m  
So good, so good, so good  
I m doin so so so so so good  
So good, so good, so good,  
It s hard to face it but I m  
So good, so good, so good

This is for them fellas  
That said we wouldn t make it  
Now we re doin platinum  
And now you can t take it  
But all the people round us  
That have been negative

Look at us now  
See how we live  
I stayed up with my people  
I m a one to keep it real  
Didn t get caught up  
In how to make you feel  
All the things I m doin  
That you thought I never could  
I want you to know that I m doin so good

Wasn t it you that said  
I thought I was all that and you  
Said I didn t have a clue  
Wasn t it you that said  
That I wouldn t make it through  
And wasn t it you that said  
That I didn t look too good  
Look at me now I ain t gone good  
Now I made it out the hood  
I want you to know that I m doin so good

#### Chorus
