Tonight

**F6 C6**

If only tonight

**Bb G**

I need something stronger, baby

**F6 C6**

Tonight

Like the moon and the stars

I don't know what you are

I can't wait any longer

Tonight

**G Bb**

Only love is the real sugar

**Am F**

Only love is the real...

NC

Everybody's ever felt lonely snap your finger

Everybody's ever felt lonely...

They say

There is a way

If you believe in something good

It could happen today

And baby

I m trying hard to sound vague  
But can I just hold you in my arms  
Promise you we ll never  
Talk about the promise again

Only love is the real sugar  
Only love is the real...

Tonight  
If only tonight  
I need something stronger, baby  
Can you provide?

Like the moon and the stars  
I don t know what you are  
I can t wait any longer  
Tonight

Cause only love is the real sugar  
Only love is the real....

Everybody s ever felt lonely snap your fingers  
Everybody s ever felt lonely...
