

Smokers Reflect

dEUS

dEUS - Smokers Reflect

D C

The two black spots in your left eye

G A

Are from staring in the sun

D C

They follow everywhere you look

G A

Like a crosshair on a gun

D C

You re lighting one more cigarette

G A

The last one of the pack

D C

Reflecting on your life a bit

G A

But it ain t reflecting back

Em F#m G

Oh you should be doing this

Em F#m G D

With somebody you love

Piano riff: 2x

D C

Scanning purple sunrise

G A

Before you crawl to bed

D C

And hearing Leonard Cohen sigh

G A

Is as deep as it will get

D C
Future is like burning time

G A
The past abiding steam

D C
And the woman that is here tonight

G A
Is a stranger with a dream

Em F#m G
Oh you should be doing this

Em F#m G D
With somebody you love

Piano riff: 2x

G F#m
Oh you re oversimplifying

G F#m
So often you have pushed away

Em
Until a lonely spring

A
Comes tell you certain things

G F#m
There is no use in denying

G F#m
It s so true what they say

Em
That when the tide is high

C
You ll jump and frolic and then you ll dive

A
Until it pulls away

D C
Well everyone s at war it seems

G A
You need a mini truce

D C

And a screw to fix the mantelpiece

G A

Cause it s still hanging loose

D C

The last thought of the morning

G A

As the crimson turns grey

D C

You put yourself on warning like

G A

You re doing every day

Em F#m G

Oh you should be doing this

Em F#m G D

With somebody you love
