

A Sight To Behold
Devendra Banhart

Standard Tuning - Acoustic

[Intro]

Am

[Verse]

Such a sight to behold
When you got small words to mold
And you can make em your own
Still love it would be much better
Love it would be much better
I m to-----old
It s like golden corn
And I love its golden glow
It s the little head inside your little hold
And out spring some sparkling thoughts
Still love it would be much better
Love it would be much better
Love it would be much better
Love it would be much better

[Verse]

It s like finding home
In an old folk song
That you ve never ever heard
Still you know every word
And for sure you can sing along

But love it would be much better

G

Love it would be much better

F

Love it would be much better

G

Love it would be much better

Am

I know, I know

[Ending]

Am
