\*Notes:\*

- 1 = This is my first tab and I think it s pretty accurate. I couldn t find one on Ultimate-Guitar.com, so I thought I d give it a try.
- 2 = Instead of Barre-chords you can put your capo on the first fret and play **G - D - Em - C**. (I don t know which way is better, but with your capo it s a lot easier.
- 3 = I do not really know the strumming pattern for this song. But you could use D U UDU DUDU UDU and switch for every chord.

One, two, and a one, two, three, four
