Bones, lying in a trunk at the foot of my bed
      C          F          G          C
They re always open to show me that they re still dead
      C          F          G          C
And everyday it s harder still
      C          F          G
I am footed and unfilled

Pain, I m good with the ways there are to erase
And I m pancaked on the floor, you can t see my face
Cuz it s buried like the moon
Sober morning s come too soon
```

Bruise, it s coming to the surface, like the vessel

It s been hidden for so long, you are the trestle
That s there to hoist me up
Now this world without you is fucked

Skin, and it s warm enough to hold you and keep you breathing
But it locks me out and makes me lose my needing
And how long to be alone
How will I carry these bones

```
|: C          F          G
And I m so far from not caring
