Di-rect - Blind For You

Di-rect ft Wibi Soerjadi

Em **C**
I see your shadow coming closer
Em **C**
and watch your drifting out me, I know
Em **D** **G**
you will make it on your own.
D **Em** **D** **C**
You can run out of everything and everything is you.

I must've missed that you were leaving.
I saw your lipstick on the mirror right here.
All of a sudden it was all clear.
You just ran out of everything and everything's said.

G **Bm**
But did you know I was blind for you?
Em **C**
Did you know about the fantasies I had?
G **B**
I and were the answers won't come around.
Em **D** **C** **D** **Em**
I blame myself for being me again and again.

I'm surrounded by your photographs.
I guess I'll never learn about today's and will I ever learn? I wonder
I would run after anything and anything is not you.

But did you know I was blind for you?
Did you know about the fantasies I had?
I and were the answers won't come around.
I blame myself for being me again, again.
Am **D** **G**
I must've missed your call. I missed it all.

G **B**
But did you know I was blind for you?
Em **C**
Did you know you meant everything to me?
G **B**
And if I had one more chance, this time.
Em **D** **C**
I would have meant the world to you.
