[Intro] **Dm   Dm7   G   Dm7   G**

Dm
Seizures may guide me, insanity found me
                                  Dm7+
I smile as your vanity sings us to sleep
Dm
Burning from both sides, secrets we can t hide
                                      Dm7+
That halo you re wearing, it s not yours to keep

Dm   **Em5-**
Stolen, and maybe broken
      Gm
Since all that you left
      Dm   **A**
Is a life that can never be whole again
Dm   **Em5-**
Fallen, I heard the warning
        Gm
 Cause all that I had was a life
      Dm   **A**
That can never be whole again

(**A**)
(**Dm   F   Eb   Dm   D°   Dm**)
(**D°**)
(**G#°   D**)

          Gm   **D**
Will you wait in my honour?
Gm   **Cm**
Save what s left of it
Bb   **F**
In vain, when it s there
Gm
For all to see
         Gm   **D**
Will I wait in your honour?
Gm   **Cm**
Save what s left of it
Bb
In vain, when it s there
G#°   **A**
For all to see

Dm

```
Hear
      Gm              Dm
The sound of violence
Gm
It s a beat that
          F
Makes us dance
      Gm
You sway
         A
And I follow your lead
Dm               Gm
Drained, like a landmine
Dm
Armed and primed
       Gm
Your words
                    F
They sound like mine
    Gm          A
We all shall repent

What we ve done
Dm
In time

Dm
Confession in real time

Lies could have been mine

Naked are words that
     Dm7+
Are dressed up in truth
Dm
Light up with voices

Screaming your choices

All that was lost just
     Dm7+
To keep you from harm

Dm                 Em5-            Gm
Spoken, like you told them, for all that I
          Dm                       A
Left was a battle that I ll never fight again
Dm               Em5-
Show them we re above them
Gm                    Dm
For all that I have is heart unsure
         A
If even time can mend
```
