G#

C#

When the stars are bright and the breeze is calm

Bb

F

I know with you I can not go wrong

G#

C#

The memory of your smile lasts long

Bb

F

Please tell me you ll not be gone

Things may not have started off great

When I first saw you I didnt think I could wait

Never forget our first date

Heaven knew we d be strait

Hold me Hold me

Hole me Close to you

If feel as is I

have know you for years

The Sound of your voice

is music to my years

When you leave i feel tears

I never thought I would care

Hold me Hold me

Hold me Close to you

People live and People Die

I tell you its not hard to cry

This song is for SKS

Shes the one I know the best

Hold me Hold me

Hold me Close to you

To me she is my dove

She is the one I love

I dont know what else to say

I think of you all the day

Hold me Hold me

Hold me Close to you

Now you tell me you want to quite

I tell you know way

When you love some you

You just cant let them walk away

Walk away walk away  
walk away walk away

There is no way  
Im gonna let you walk away
