Verse 2 Come a little closer, baby, I feel like letting go
Of everything that stands between and the love we used to know
I wanna touch you like a Cleansing rain and let it wash all the hurt away
So come a little closer, baby, I feel like lettin' go

Verse 3 Come a little closer, baby, I feel like strippin' it down.
Back to the basics of you and me and what makes the world go round.
Every inch of you against my skin, I wanna be stronger than we've ever been.
So, come a little closer, baby, I feel like strippin' it down.

Awesome song to play for your woman. The Chords are 100% right! Enjoy!
