C                                D (C shape at 3rd fret)
I ve been bakin through the night
                                C
Everybody s so uptight
                                D
People hurt and that s their right
                                C
Cut em all just think I might
                                D
Stewin hanging out in town
                                C
In my head whirlin around
                                D
Don t trust your mind it ll let you down
don t ever think to go home
```

A|-----|
E|-----|
```

VERSE:

```
C                                D
There s a time and there s a place
                                C
It s not now it s time to pace
                                D
Things I say but just can t face
                                C
All it means to say them
                                D
Would believe the things I feel
                                C
Then tomorrow is it the same deal
                                D
Am I acting on something real

Or am I blowin it again
```

CHORUS: x3

INTRO: x4
