

**Cage Intro**  
**Dir en Grey**

This is how i play it. I figured out after i got accustomed to playing this way that you start on the fifth fret of the second string and you can probably move all this down to starting open on the third string which might make it a little easier for someone.

```
-----  
-----3-----  
-55--88-----3-----55-----5/8-7  
---55--88-55-3-5-----66-88---6-3-5-6-3-----
```

```
-----  
-----3-----  
-55--88-----3-----55---10-10-8-7  
---55--88-55-3-5-----66-88---6-----
```

I m pretty sure thats how it goes. There s no real order to that tab but if you know and like the song, you re clearly a genius with great taste in music so I m sure you can figure it out.
