

**The Problem**  
**Direct Hit!**

[Verse]

**A**

We re not so different, you know

**F#m**

just one or two chromosomes slipped backward makes us bastards

**A**

Admit we re worms in the earth, so swallow, pass out that dirt

**F#m**

**D**

They need us - walking on the path created by our mouths, our guts

**E**

Not once, but always treated like a clown, like rust cleaned up, we re trash  
this time

[Chorus]

**A**

**F#m**

We re just a waste of a life - why bother even trying?

**D**

**E**

Our pupils pointed inside our skulls

**A**

Prefer just to sigh-igh away like our conversations

**F#m**

Sigh away from obliteration

**D**

**E**

Fly away from the radio station - it s all just useless information

[Verse]

**A**

You and me s all that we ve got

**F#m**

A pair of demons, we rot in pieces

**A**

If we re found out: ironed creases, dust swept beneath royal rug

**F#m**

We ve dug ourselves deep enough, so fingers crossed it passes

**D**

Worst case it s death, so listen: that sound out loud, that thunder

**E**

Delay is so misleading, eyes open, no more sleeping

[Chorus]

**A**

**F#m**

We re just a waste of a life - why bother even trying?

**D**

**E**

Our pupils pointed inside our skulls

**A**

Prefer just to sigh-igh away like our conversations

**F#m**

Sigh away from obliteration

**D**

**E**

Fly away from the radio station - it s all just useless information

[Bridge]

**A**

We re the problem anybody d argue, hear the sobbing coming from the bathroom?

**D**

Clear your throat, start dabbing all your tears You hear the sirens coming the horizon

**A**

Dark, we ll keep each other on the line, say bye, we ll sigh in the morning when the sun s up

**D**

We re the problem, you ll see it if you look, don t hide your eyes - doesn t matter in the darkness

[Chorus]

**A**

**D**

**E**

We re just a waste of a life - why bother even trying?

**A**

**D**

Our pupils pointed inside our skulls

**E**

**A**

Prefer just to sigh-igh away like our conversations

**D**

**E**

Sigh away from obliteration

**A**

**D**

**E**
