

Garland

Dirty Heads

Song came out today, its one of my favorites. The single notes are in the chords so i hope you can find the individually picked notes. When Jared is sustaining the notes for the yoooouuu, you have to calculate where he does the **C D** back into the top of that line. In the chorus in some points, I think he hits a quick **Bm** after the **G**, im not sure so I am not going to add it. Also this is my first tab and im nervous so if there s any mistakes, my bad :).
