

**Knows That I  
Dirty Heads**

- Standard Tuning, no capo. But you could if you wanted to. Why not? And just feel out the strum timing. Enjoy. -

**Bbm C#**  
She knows that I  
**G# F#**  
I m never ever gonna run away  
**Bbm C#**  
So close your eyes  
**G# F#**  
Cause words only get in the way

**Bbm**  
Maybe you wanna love me

Maybe you wanna leave  
**C#**  
Maybe you wanna run to him  
**G#**  
Or stay here with me

**Bbm**  
And now you sit and stare with a crooked smile

Sit think in your own denial

Admit when we touched our lips

It hit both you and I  
**C#**  
A heart with a different name  
Ashamed that you felt the same  
**G#**  
Deal with the pain and still remain  
Or hope for a change

**F# C#**  
She s like a welcome summer rain, comes with perfect timing  
**G#**  
She said love needs pressure, pressure turns to diamonds  
**F# C#**  
Like a welcome summer rain, comes with perfect timing  
**G#**  
Love needs pressure

Well pressure makes diamonds

**Bbm C#**
