

**Knows That I
Dirty Heads**

- Standard Tuning, no capo. But you could if you wanted to. Why not? And just feel out the strum timing. Enjoy. -

Bm **D**
She knows that I
A **G**
I m never ever gonna run away
Bm **D**
So close your eyes
A **G**
Cause words only get in the way

Bm
Maybe you wanna love me

Maybe you wanna leave
D
Maybe you wanna run to him
A
Or stay here with me

Bm
And now you sit and stare with a crooked smile

Sit think in your own denial

Admit when we touched our lips

It hit both you and I
D
A heart with a different name
Ashamed that you felt the same
A
Deal with the pain and still remain
Or hope for a change

G **D**
She s like a welcome summer rain, comes with perfect timing
A
She said love needs pressure, pressure turns to diamonds
G **D**
Like a welcome summer rain, comes with perfect timing
A
Love needs pressure

Well pressure makes diamonds

Bm **D**
