Liten to song for strumming pattern(s)

(Intro)
C G (x3) **Am F**
C G (x3) **Am F**

(Verse 1)
```
C                                  G                      C
Picking up slack, you live for it lady
                              G
You never have a good time and go
C                           G                 Am
Takin  it back, you try for it daily
                          F
You only like that old rock  n roll
      C                             G                        C
You wait for the night you re rockin  it steady
                        G
You can t stop and f**k up your flow
      C
You fight from the fix
    G                         Am
The weight of it s heavy
                      F
You feel like you ll never let go
```

[Pre-Chorus]
```
      Am
And over, and over
      F                           C      G
And over, and over again
```

Oh yeah
Am
Over, and over
```
      F                         C
And over, and over again
```
G

```
[Chorus]x2
                    C                        Am
Look to the warming sun
                    F                            G
We left the troubles all around the town
                                C            Am
You know we didn t hurt no one
            F                                G
We lit the sky up and we burned it down
C G(x3) Am F

(Verse 2)
C                            G                        C
Slippin  in time, we move with it only
                            G
We didn t know the night went so fast
      C
We broke all our bones
      G                    Am
The city, it owed we
                    F
We never let it live in the past
        C                        G                    C
We live in the light, we wake with it slowly
                        G
Learn to love, the one thing that lasts
            C
When daybreak came on
                    G                        Am
Knew it was one thing it showed me
                                F
That there was nothing left in our path

[Pre-Chorus]

[Chorus]x2
C            Am F                    G
Oh-oh-oh,  round and  round we go
C            Am            F                    G
Oh-oh-oh, now we reapin  what we sowed
C            Am F                    G
Oh-oh-oh,  round and  round we go
        F    G
And Ooo

[Chorus]x4

End on C

Hope you enjoy playing this song as much as I did figuring it out ;)
```
